MEMORANDUM

TO File

THROUGH Allan Moore *AM*  
Hazardous Waste Management Section Manager

FROM Eric Baiden  
Environmental Scientist

DATE April 13, 2011

SUBJECT Small Quantity Generator Hazardous Waste Compliance Inspections  
Sam Club #6685,  
Provo, Utah,  
EPA ID #UTD000001990

On December 8, 2010, a hazardous waste compliance evaluation inspection was conducted at Sam Club #6685, located in Provo, Utah. Evaluation of records during the inspection indicated that Sam's Club qualifies as a Small Quantity Generator (SQG) of hazardous waste, based on waste generation rates. At the time of the inspection the Division records indicate that Sam's Club #6685 is listed as a Large Quantity Generator (LQG) of hazardous waste. Accordingly, Sam's Club was asked by the Inspectors to complete a hazardous waste notification form to reflect its current generator status as a SQG. The Division has subsequently amended its record to reflect this change. Based on the findings of the inspection conducted Sam's Club is in compliance with Utah Hazardous Waste Management rules.
